1. Screw conveyor fabricate Bruks In like new condition for sawdust and chips length 8,500 mm diameter  $\varnothing$  600 mm capacity up to 200 m<sup>3</sup>/hours  
**For price ask us**
2. Boiler (Danastoker) 4,5 MW  
**Price: 25,000:- SEK**
3. Double end toner line (Costa) input consisting of vacuum lift roller conveyors with angle transmission. Double end toner 1 model OLIMPIA/ok 5/4 4/112.  
Double end toner 2 model OLIMPIA/ok 651 /152. included existing spare parts, cutters and blades.  
**Price: 75,000:- SEK excl. dismantling and frakt cost**
4. One (1) complete friction pressure fabricate Paks.  
Min length lamell: Min: 430 mm. Max: 1530 mm.  
Capacity: 36 pcs lamellae / min or 7 800 m<sup>2</sup> / shift.  
**Price: 55,000: - SEK**
5. Stenner split band saw with semi-automated circuit line.  
**Price: 50,000:- SEK**
6. Log sorting line with 2 x 23 pockets consisting of tow (2) parts log table, elevator with built-in end leveling roll conveyor, one speed feeder, But end reducer (Bruks) 1200, Log crane and operator cabin, revive conveyor, measuring conveyor and Rema electronic system, sorting conveyor with electrically powered pushers, electric and hydraulic equipment.  
**For price ask us**
7. One (1) used planning machine (Weinig)  
Model year 1979 has been run only for short periods the line was stopped 2004 and has since been stored on site.  
Power plant 4.0 kW  
Spindle placement and kW  
1: a under 4.0 kW  
2nd Right 3.0 kW  
3rd Left 5.5 kW  
4th Right 4.0 kW  
5th Over 5.5 kW  
6th Under 4.0 kW  
Universal 11.0 kW  
Spindle diameter  $\varnothing$  35  
Comes with some cutters et **For price ask u**
8. Five (5) pieces used Humidification units (Munters) Type HUMIMAX 9000 with control units suitable for climate control in, for example, production premises for glulam. **For price ask us**

## **Current Stock list**

**Page 2**

9. One (1) brand new welding machine for bandsaw blades excl.  
Mig - welding. Fabricate (Munkfors) type MFS 250 V 50 Hz3ph  
**Price: 12,000:- SEK**
10. One (1) used Swaging machine (Wollmer Werke) Type PMH for frame saw blades  
**For price ask us**
11. One (1) used Beam planer (Kupermuehle) FABR 86-63 max planer with 500 height + 200 with sides cutters max planer height 120 mm.  
**For price ask us**
12. Approx. 800 meter used roller chain 1 "with straight link side in very good condition.  
**For price ask us Approx. 450 meter is sold**
13. A number of used gears with electric motor. In very good condition  
**For more information and price ask us**
14. A number of used belts and scrap conveyors of different lengths and widths.  
**For more information and price ask us**
15. Five (5) pieces used Humidification units (Munters) Type HUMIMAX 9000 with control units suitable for climate control in, for example, production premises for glutam. **For price ask us**
16. One (1) brand new welding machine for bandsaw blades excl.  
Mig - welding. Fabricate (Munkfors) type MFS 250 V 50 Hz3ph  
**Price: 12,000:- SEK**
17. One (1) used Swaging machine (Wollmer Werke) Type PMH for frame saw blades  
**For price ask us**
18. One (1) used Beam planer (Kupermuehle) FABR 86-63 max planer with 500 height + 200 with sides cutters max planer height 120 mm.  
**For price ask us**
19. Two (2) used flat grinders one (LEYA Patent) and one with unknown make  
**For price ask us**
20. One (1) used grinding machine for band saw blades and circle saw blades (Wollmer Werke) CNH No 2788  
**For price ask us**

21. 1 st. Factory new freestanding steel chimney type Källreda Standard dimensioned for 3 + 5 MW Boiler by Cor-Ten. H = 16 meters.  
Made according to applicable standards.  
1 st. supporting outer shell Ø 950 mm. Blasted.  
1 st. flue Ø 508x4 mm.  
Material: Corten Insulation 80 mm mesh mat RW 450  
1 st. top ring.  
1 st. external ladder with back protection according to current regulations.  
1 st. sweeping platform with ascent hatch and guardrail.  
1 st. bottom flange.  
1 st. foundation bolt arrangement.  
Wind-repellent spirals.  
Required reinforcement of jacket when passing flue.  
Required ventilation of chimney casing  
The chimney has been in stock for about 10 years and is completely faultless. Drawing according to appendix 3  
**For price ask us**
22. 2 st New timber grip with large BM bracket.  
**For price ask us**
23. 10 pieces transport fans (for sawdust etc.) in different sizes  
**For more information and price ask us**
24. Two (2) cyclones diameter ø 1,300 mm + connection 400 mm, height 3,000 mm weight / unit 565 kg quality in new condition  
**For more information and price ask us**

**Page 4**

25. Complete sawline installed in 1998 after fire damage, full production until 2004/2005. Then only utilized to a limited extent to 2008. Purchased and dismantled off the buyer in 2013. The dismantling was made to ensure an easy assembly at the new location with markups and all the necessary documentation.

### **Preliminary: Main machine list**

1. Log intake is not included
2. Debarker - Cambio (sold)
3. Reducer Bruks RR 700
4. Infeed to sawline
5. First bandsaw - AKE 1600 (vertical)
6. Second bandsaw – AKE 1400 (horizontal)
7. Circular canter Söderhamn 5000
8. Cutsaw
9. 2 Lamella saws – Waco/Jonsered
10. Hydraulic equipment
11. Pneumatic equipment Atlas Copco and Kärcher
12. Saw dust system excl. pipes
13. Control system
14. Spare parts stock

Capacity so according to information the line produced about 40,000 m<sup>3</sup> logs / year at 2 shifts with an average log of 30 cm in diameter.

**For more information and price ask us**

26. Used step-feeder for boards

### **Sawline**

27. Complete Sawline with ARI machinery

### **Planning line**

- 28 A. Complete Planning line with Waco Attack with 9 spindles

- 28 B. Complete Planning line with Waco Gigant with 6 spindles

- 28 C. + 3 Complete Planning line more

## **Current Stock list**

**Page 5**

### **Quality sorting line**

29. Complete quality sorting line with automatic sorting system  
48 bins, packet machine and emblaze and packet press mm.  
Building is also for sale

### **Combi sorting line**

30. With 30 sorting bins The line is very little run so it is basically  
in new condition

### **31. Green sorting line**

Complete green sorting line with 40 sorting bins and stacking machine  
with automatic stack system.

### **32. Quality sorting line**

Complete quality sorting line with 40 sorting bins, packet – press line  
with strapping system.

### **33. Used factory renovated chip screen**

Fabricate Siba/Erjo type SIBA 4. With up to 4 fractions.  
Includes one output screw length 4.6 meters and  
spare parts to the screen.

### **34. Simple saw line**

Consisting of timber intake with.  
But end reducer Bruks RR 700, debaker VK 26 T with input and output.  
Saw- line with ARI KS 12 with circular path, KL 10 with circular path.  
Edging line with Dendro infeed and ARI KT 5.  
Chipper and chip screen Bruks BS 4

### **35. Separate machines**

Reducer ARI SKR 600  
Magnetic coil  
Dividing saw ARI DS 82  
2 dividing saws ARI DS 8

## **Current Stock list**
