

## **Current Stock list**

**Page 1**

1. Tow (2) parts log log tables, step feeder with 3 steps, receiving conveyor and log crane  
**Price: 200,000:- SEK**
2. Bark mill HBS 1280-51 (55 kW) complete with steel stand, incl in and outfeed conveyor.  
**Is SOLD**
3. Chains conveyor with side cover to left for connects to step feeder with 7 steps.  
**Is SOLD**
4. Euro Mill with in and out feed for side and center boards, and lot of spare parts, cutters, and sawblades.  
**Price: 375,000:- SEK**
- 4:1 Stacking machine (ALMAB) with elevator tow (2) even ends, automatic stacking – handling and packet outfeed conveyor.  
**Is SOLD**
5. Chip screen (Bruks) BS7 B4, **Is SOLD**
- 5.1 Screw conveyor (Bruks) diam ø 600 length 8,500 mm  
Capacity up to 200 m<sup>3</sup> / hour  
**For more information and price ask us**
6. Log sorting line with 2 x 10 pockets consisting of log tables, seep feeder, log crane receiving conveyor, measuring conveyor.  
**Price excl. measurement system: 375,000:- SEK**
7. Boiler (Danastoker) 4,5 MW  
**Price: 125,000:- SEK**
8. Sprinkler unit, with water tank = container 1 – container 2. 50% of volume is water tank and remaining volume is control room vid electric motors and diesel motor = reserve power supply. Included a large number of meters of pipes and sprinkler nozzles.  
**Price: 50,000:- SEK**
9. Double end toner line (Costa) input consisting of vacuum lift roller conveyors with angle transmission. Double end toner 1 model OLIMPIA/ok 5/4 4/112.  
Double end toner 2 model OLIMPIA/ok 651 /152. included existing spare parts, cutters and blades.  
**Price: 75,000:- SEK**
10. One (1) complete friction pressure fabricate Paks.  
Min length lamell: Min: 430 mm. Max: 1530 mm.  
Capacity: 36 pcs lamellae / min or 7 800 m<sup>2</sup> / shift.  
**Price: 55,000: - SEK**

11. Tow (2) complete lines for wood packet cuts (Sword cuts) one off fabricate PRINCE factory renovated and one-off Swedish fabricate in verry good condition.  
**Price/pieces: 80,000:- SEK**
12. One (1) complete quality sorting line, according to appendix 1 = drawing  
The line is dismantling and is stored under a roof.  
**Price: 550,000:- SEK**  
*We are also open to sell the line in units such as transporters, elevators, tilts, sorting tables, trimmers 1.0 - 6.0 m in 3 dm module, 12 band pockets, package layers, package delivery incl. package press with automatic bolster handling, stacking receivers, compressor etc.*  
**For price ask us**
13. Stenner split band saw with semi-automated circuit line.  
**Price: 100,000:- SEK**

### Equipment in external stock

14. Log sorting line with 2 x 23 pockets consisting of tow (2) parts log table, elevator with built-in end leveling roll conveyor, one speed feeder, But end reducer (Bruks) 1200, Log crane and operator cabin, revive conveyor, measuring conveyor and Rema electronic system, sorting conveyor with electrically powered pushers, electric and hydraulic equipment.  
**For price ask us**
15. Complete Raw sorting incl. stacking line with 26 pockets, two sorting places on separate planes, trimmer, automatic stack handling, hydraulic equipment and electric, and existing electronic system.  
**For price ask us**
16. Log turner (Inter-log) with in and outfeed and a simple log crane  
**For price ask us**
17. One (1) easy used dismantled log intake with debaker machine Cambio 66  
**For more information and price ask us**

### Other in stock

18. Approx. 800 meter used roller chain 1 "with straight link side in verry god condition.  
**For price ask us**
19. A number of used gears with electric motor. I verry god condition see attached specification appendix 2  
**For price ask us**
20. A number of used belts and scrap conveyors I deferens length and with.  
**For more information and price ask us**

**21.** 19 pieces roll- conveyor o driven.

Length	3000 mm
Total width	1080 mm
Total height	160 mm
Roll length	1000 mm
Roll diameter	ø76 mm
Roll division	c/c 200 mm

**Is SOLD****22.** One (1) used planning machine (Weinig)

Model year 1979 has been run only for short periods the line was stopped 2004 and has since been stored on site.

Power plant 4.0 kW

Spindle placement and kW

1: a under 4.0 kW

2nd Right 3.0 kW

3rd Left 5.5 kW

4th Right 4.0 kW

5th Over 5.5 kW

6th Under 4.0 kW

Universal 11.0 kW

Spindle diameter ø 35

Comes with some cutters etc.

**For price ask us****23.** One (1)used planning machine (Weinig) for production off lamella.**“Renovation object”**

Type H 22 BL machine number 220-1211

Continuous supply variator 7.5 kW

Feed rate 6 - 36 m / min

Cutter placement is as follows:

1st below 7.5 kW no support bearing (has not been used)

2nd under 7.5 kW with support bearing

3.a right 7.5 kW

4th left 7.5 kW

5th over 11.0 kW with support bearing

6th below 30.0 kW = saw spindle

7th below 7.5 kW with support bearing

8th over 7.5 kW with support bearing

Digital reading on all cutters

**For price ask us****24.** Five (5) pieces used Humidification units (Munters) Type HUMIMAX 9000 with control units suitable for climate control in, for example, production premises for glulam.**For price ask us****25.** One (1) brand new welding machine for bandsaw blades excl.

Mig - welding. Fabricate (Munkfors) type MFS 250 V 50 Hz3ph

**Price: 12,000:- SEK**

26. One (1) used Swaging machine (Wollmer Werke) Type PMH for frame saw blades  
**For price ask us**
27. One (1) used Beam planer (Kuper Muhle) FABR 86-63 max planer with 500 height + 200 with sides cutters max planer height 120 mm.  
**For price ask us**
28. Two (2) used flat grinders one (LEYA Patent) and one with unknown make  
**For price ask us**
29. One (1) used grinding machine for band saw blades and circle saw blades (Wollmer Werke) CNH No 2788  
**For price ask us**
30. One (1) used Compressor (Atlas Copco) GA 55 with refrigeration dryer (Kaeser)  
**Is SOLD**
31. 1 st. Factory new freestanding steel chimney type Källreda Standard dimensioned for 3 + 5 MW Boiler by Cor-Ten. H = 16 meters.  
Made according to applicable standards.  
1 st. supporting outer shell Ø 950 mm. Blasted.  
1 st. flue Ø 508x4 mm.  
Material: Corten Insulation 80 mm mesh mat RW 450  
1 st. top ring.  
1 st. external ladder with back protection according to current regulations.  
1 st. sweeping platform with ascent hatch and guardrail.  
1 st. bottom flange.  
1 st. foundation bolt arrangement.  
Wind-repellent spirals.  
Required reinforcement of jacket when passing flue.  
Required ventilation of chimney casing  
The chimney has been in stock for about 10 years and is completely faultless. Drawing according to appendix 3  
**For price ask us**
32. Foil machine, New timber grip with large BM bracket.  
**For price ask us**
33. About ten transport fans (for sawdust etc). in different sizes  
**For more information and price ask us**
34. Two (2) cyclones diameter ø 1,300 mm + connection 400 mm, height 3,000 mm weight / unit 565 kg quality in new condition
35. HewSaw R200 factory renovated, can be delivered with a used feed conveyor type banana track.  
**For more information and price ask us**

**36. On the way in**

1. A number of conveyor units, spray cans, etc. to a painting line
2. Edge machine type Edgar with Söderhamn's edging 513 is available for delivery at the end of August 2021
